# INDEX TO AUTHORS.

Annfield, Capt. J. Malcolm.—An interesting patient, 320; Anthrax: a peculiar case, 288.

Berton, M.—Mange and the air cure, 218.
Bimbi, P.—Use of sugar in surgical lesions of the foot of horses, 220.
Bogue, Capt. T. G. S.—Treatment of ulcerative cellulitis with picric acid, 288.
Bond, P. G.—Struck by lightning, 209.
Bonnikson, H. P.—Bile and uræmic poisoning in a mare due to larvæ of *Gastrophilus equi*, 28.
Bridré, J.—Epizootic lymphangitis in France: its diagnosis and treatment, 173.
Brogan, G. H.—Notes on contagious bovine pleuro-pneumonia in Northern Rhodesia, 369.
Bryan, Capt. C. E. W.—Foreign body in the pharynx of a horse (illustrated), 368; Use of arecoline hydrobromide in the treatment of colic, 400.
Burndred, W. G.—Tubercular arthritis affecting cervical vertebræ of a mare, 426.
Burton, A. C.—"Stomatitis contagiosa" in horses (illustrated), 234.
Buxton, J. B.—Temperature required for the "inactivation" of mule blood for the complement fixation test for glanders, 245.
Canis Major.—Three cases of sarcoma in the dog, 292.
Catala, Juan Varas.—Dermatomycoses in calves, 411.
Chambers, J.—Tuberculosis in the horse, 242; Treatment of pneumonia by intra-tracheal injections, 421.
Chaussée, Major.—On the use of a so-called metallic dressing (illustrated), 336.
Cholet, R.—Torsion of the uterus in a bitch—hysterectomy, cure, 175.
Chollet and Vigel.—Lepinay's treatment of mange of the horse by sulphurous anhydride, 267.

Davis, David John.—On certain relations of the lower animals to human disease, 22.

Ferguson, Capt. A. S.—Eversion of the uterus in a mare, 48.
Fraser, Lieut. H.—Interesting case in a foal, 164.
Frie, Prof. Walter.—Factors upon which the effect of disinfectants depend, 72.
Fröhner, Eugen.—Services of veterinary medicine in the war, 299.

Gair, George.—Diazo-reaction, 49; Fibro-myoma in abdominal cavity of retriever dog, 404; Impetigo, 90; Strepto-trichosis or pseudo-actinomycosis in man (pseudo-tuberculosis), 96.
Gazenbeck and Jakob.—Intracutaneous tuberculin test according to Es and Schalk as a diagnostic in fowl tuberculosis, 72.
Gibbs, Major H. E.—Report upon an outbreak of stomatitis contagiosa (illustrated), 147.
Goodall, Thos. B.—Forest fly, the, 403.

Hancock, Capt. R. C. J.—Graphic method of recording lameness (illustrated), 162; War pica, 4.
Haywood, C.—Interesting case of spurious hermaphroditism (illustrated), 206.
Herrera, Clemente Martinez.—Maxillary osteo-sarcoma, 406.
Hobday, Major Frederick.—Origin of the so-called "forks" in bags of oats (illustrated), 344; Presence of *Strongylus armatus* in the testicle of cryptorchids (illustrated), 319.
—— and Player, Capt. J. F.—Interesting case of eversion of the uterus in a cow, 43.
Hodgkins, Major J. R.—Disinfection of standings, 285; Extension apparatus for use during foot operations (illustrated), 865; Poll evil bridle, a (illustrated), 285.
Holmes, Capt. R. P.—Intradermal palpebral mallein test for glanders, 200.
Hudson, R.—Dropsy in sheep (illustrated), 247; Uterine septicæmia (subacute) endocarditis in mares, 101; Rheumatism—or what? 428; Subcutaneous emphysema, 430.

Inglis, T. M.—Tetanus bacillus and its microbian associates, 94.

Jakob and Gazenbeck.—Intracutaneous tuberculin test according to Es and Schalk as a diagnostic in fowl tuberculosis, 72.
Jones, Richard.—Castrating rope (illustrated), 211; Fracture of the tibia, 205.

Koenig, F., and Udall, D.—Colic in a heifer, 408.

XUM

Lacroix, J. V.—Traumatic division of the deep flexor tendon below the insertion of the superficial digital flexor, 12.
Leckie, Major Victor C.—French operation for quittor (illustrated), 362.
Leclainché, M E.—Remarks on the French army veterinary service, 231.
Leese, Capt. A. S.—" Tips " on camels, for veterinary surgeons on active service, 79, 167, 214, 253, 294, 323.
Linton, R. G.—Some maize by-products, 276.
——— and Petrie, W. S.—Dietetic value of wheat bran (illustrated), 185.
Lucet, A.—Parasitology, 30.

McIntyre, Major G.—Remarks on sand colic as it is met with in Egypt, 282.
Mahon, Fred C.—Study in toxicology, 50.
Matheson, Capt. J. A.—Interesting shrapnel injury, 44; Remarks on the surgical treatment of quittor (illustrated), 155; poll evil, 425.
Mayall, G.—Canine, feline, and porcine cases, 165; Distomatosis, liver rot or fluke in sheep, 91; Intermediate objects as carriers of disease, 250; Punctured wound in the hock in a cart mare, 65; necrotic vaginitis in cattle, 429.
Mayo, Nelson S.—Poisonous plants, 251.

Parker, J. H.—" Snoring " in cattle, 15.
—— Thomas.—Case of equine scabies in the mouse (illustrated), 206; Three cases of equine sarcoptic scabies in man, 243.
Paton, J.—Spasm of diaphragm in a pony, 322.
Petrie, W. S. and Linton, R. G.—Dietetic value of wheat bran (illustrated), 185.
Mayfair, Capt. J. F., and Hobday, Major Frederick.—Interesting case of eversion of the uterus in a cow, 43.
Pook, Capt. G. G.—Ulcerative cellulitis (illustrated), 308.
Prichard, Lieut. L. E.—Report on contagious necrosis in the horse (illustrated), 396.

Ripley, J. H.—Treatment of gangrenous mammitis in cattle, 11.
Roberts, Horace.—Case of goitre in dog, 427.
Routledge, Capt. A. R.—Method of dealing with punctured and suppurating eyeballs, 322; Retracting hooks for neurectomy operations (illustrated), 367; Surgical treatment of compound fracture of the rib, 366; Treatment of grease, 287.

Schreck, Oscar.—Cystitis in the dog and cat, and treatment, 409.
Snook, J. H.—Urinary calculi, with a report of six cases operated at the University Hospital, 17.
Steevenson, Capt. E. F.—Bacterial necrosis in the horse, 44.
Sutton, Capt. Guy.—Interesting ovariotomy of a troublesome mare (illustrated), 307.

Tahuer.—Piroplasmosis equina, 407.
Taylor, W.—Unusual result after the "roaring" operation (illustrated), 290.
Townsend, Capt. C. H. S.—Peculiar case of " temporary paralysis (?) of the neck muscles " in a horse, 320.
Truche, C. — Bacterio - therapeutic treatment of ulcerous lymphangitis, 37.
Trull, E.—Curiosities of the slaughter-house (illustrated), 259.

Udall, D., and Koenig, F.—Colic in a heifer, 408.

Valerio, Prof. Galli.—Present war, the, and the spread of parasitic diseases in men and animals, 102.
Vigel and Chollet.—Lepinay's treatment of mange of the horse by sulphurous anhydride (illustrated), 267.

Watkins-Pitchford, Lieut.-Col. H.—Inquiry into the horse disease known as septic or contagious pneumonia (illustrated), 345.
Watson, Capt. E. A.—Report on ulcerative cellulitis—ulcerous lymphangitis, 382; Report on ulcerative cellulitis—ulcerous lymphangitis, 382.
Whitfield, A.—Cases of pruritic dermatitis caused by infection of mange from the kitten, 60.
Wight, A. C.—To raise a fallen horse with a rope, 26.
Wilder, J. L.—Physical examination of dairy cows, 221.
Wilson, Peter.—Stricture of the pylorus in cattle, 6.
Winter, Capt. E. C.—Rambling reminiscences of a remount officer in U.S.A., 431.

Yates, G.—Obscure lameness in the dog, 16.

# GENERAL INDEX.

## A.

Abdominal cavity, fibro-myoma in, of retriever dog, 404.
Abscesses, serous, on the side of the neck and shoulders, treatment of (illustrated), 286.
*Abstracts.*—
Colic in a heifer. By D. Udall and F. Koenig, 408.
Curiosities of the slaughter-house. By E. Trull (illustrated), 259.
Cystitis in the dog and cat, and treatment. By Oscar Schreck, 409.
Dermato-mycosis in calves. By Juan Varas Catala, 411.
Disease set up in various animals by *T. brucei* (Zululand strain), 25.
Factors upon which the effect of disinfectants depends. By Prof. Walter Frie, 72.
Physical examination of dairy cows. By J. L. Wilder, 221.
"Sand colic," 412.
Vesicular stomatitis in the horse, 176.
Agencies, intermediary, in the spread of contagious diseases, 184.
Aid to diagnosis, illustrations as an, 306.
Air cure of mange, 218.
American and French armies, the veterinary service in, 229.
—— army veterinary service, 265.
Anthrax: a peculiar case, 288.
Antiseptics, method of using, in war surgery, 405.
Antivivisection, 2.
Apparatus, extension, for use during foot operations (illustrated), 365.
Arecoline hydrobromide, use of, in the treatment of colic, 400.
Army veterinary service, American, 265.
—— —— ——, French, remarks on the, 231.

## B.

Bacterial necrosis in the horse, 44.
Bacterio-therapeutic treatment of ulcerous lymphangitis, 371.
Bile and uræmic poisoning in a mare due to larvæ of *Gastro philusequi*, 28.
*Biography.*—
Flight-Commander Sidney Smith, D.S.O. (illustrated), 145.
Bitch, torsion of the uterus in a—hysterectomy, cure, 175.
Bites, serous abscesses on the side of the neck and shoulders resulting from, treatment of (illustrated), 286.
Bridle for cases of poll evil (illustrated), 285.
By-products of maize, some, 276.

## C.

Calculi, urinary, 17.
Calves, dermato-mycoses in, 411.
Camels, "tips" on, for veterinary surgeons on active service, 79, 167, 214, 253, 294, 223.
Canine, feline, and porcine cases, 165.
Carriers of disease, intermediate objects as, 250.
Castrating rope (illustrated), 211.
Cat and dog, cystitis in, and treatment, 409.
Cattle, "snoring" in, 15, 177.
—— stricture of the pylorus in, 6.
—— treatment of gangrenous mammitis in, 11.
Cellulitis, ulcerative (illustrated), 288, 308, 382.
—— —— treatment of, with picric acid, 288.
—— —— ulcerous lymphangitis, report on, 382.
Certain relations of the lower animals to human disease, 22.
*Clinical Cases.*—
Bacterial necrosis in the horse. By Capt. E. F. Steevenson, 44.
Cases of pruritic dermatitis caused by infection of mange from the kitten. By A. Whitefield, M.D., 69.
Eversion of the uterus in a mare. By Capt. A. F. Ferguson, 48.
Interesting case of eversion of the uterus in a cow. By Major Frederick Hobday and Capt. J. F. Player, 43.
—— shrapnel injury. By Lieut. J. A. Matheson (illustrated), 44.
Obscure lameness in the dog. By G. Yates, F.R.C.V.S., 16.
Operation of gastrotomy and enterectomy upon the dog, 66.
Punctured wound of the hock in a cart mare. By G. Mayall, M.R.C.V.S., 65.
"Snoring" in cattle. By J. H. Parker, M.R.C.V.S., 15.
Uterine septicæmia (subacute) endocarditis in mares. By R. Hudson, F.R.C.V.S., 101.
Colic in a heifer, 408.
—— sand, 412.

Colic, treatment of, use of arecoline hydrobromide in the, 400.
Complement fixation test for glanders, temperature required for " inactivation " of mule blood for the, 245.
Compound fracture of the rib, surgical treatment of, 306.
Contagious bovine pleuro-pneumonia in Northern Rhodesia, 369.
—— diseases, spread of, intermediary agencies in, 184.
—— necrosis in the horse, report on (illustrated), 396.
*Correspondence.*—
Paracentaris abdominis, 32.
Punctured eyeball case, 377.
Snoring in cattle, 177.
Cows, dairy, physical examination of, 221.
Cryptorchids, presence of *Strongylus armatus* in testicle of (illustrated), 319.
Curiosities of the slaughter-house (illustrated), 259.
Cystitis in the dog and cat, and treatment, 409.

## D.

Deep flexor tendon, traumatic division of the, 12.
Dermatitis, pruritic, caused by infection of mange from the kitten, 69.
Dermato-mycoses in calves, 411.
Diagnosis and treatment of epizootic lymphangitis in France, 173.
—— illustrations as an aid to, 306.
Diaphragm, spasm of the, in a pony, 322.
Diazo-reaction, 49.
Dietetic value of wheat bran (illustrated), 185, 264.
Disease, carriers of, intermediate objects as, 250.
—— set up in various animals by *T. brucei* (Zululand strain), 25.
Diseases, contagious, spread of, intermediary agencies in the, 184.
—— of war, some, and their urgent significance in regard to the return of horses to England, 146.
Disinfectants, factors upon which the effect of, depends, 72.
Disinfection of standings, 285.
Distomatosis, liver rot, or fluke in sheep, 91.
Division, traumatic, of the deep flexor tendon, 12.
Dog and cat, cystitis in, and treatment, 409.
—— obscure lameness in the, 16.
—— retriever, fibro-myoma in abdominal cavity of, 404.
—— sarcoma in the, three cases of, 292.
Dog, the, operation of gastrotomy and enterectomy upon, 66.
Drainage by means of horsehair, 221.
Dressing, a so-called metallic, on the use of a (illustrated), 336.
Dropsy in sheep (illustrated), 247.
Drugs, observation and, 343.

## E.

Egypt, sand colic in, remarks on, 282.
Endocarditis and subacute uterine septicæmia in mares, 101.
Enterectomy and gastrotomy in the dog, 66.
Epizootic lymphangitis in France: its diagnosis and treatment, 173.
Equine sarcoptic scabies, three cases of, in man, 243.
—— scabies in the mouse (illustrated), 206.
Eversion of the uterus in a cow, 43.
—— —— in a mare, 48.
Examination, physical, of dairy cows, 221.
Experience of a veterinary officer in the battle of the Somme, 48.
Extension apparatus for use during foot operations (illustrated), 365.
Eyeball, punctured, case of, 377.
Eyeballs, punctured and suppurating, method of dealing with, 322.

## F.

Factors upon which the effect of disinfectants depends, 72.
Fallen horse, to raise a, with a rope, 26.
Feline, canine, and porcine cases, 165.
Fibro-myoma in abdominal cavity of retriever dog, 404.
Flexor tendon, deep, traumatic division of the, 12.
Flight-Commander Sidney Smith, D.S.O. (illustrated), 145.
Fluke, distomatosis, or liver rot in sheep, 91.
" Fly " belt, night trek through the, 401.
— the forest, 403.
Foal, interesting case in a, 164.
Food supply, 77.
Foot operations, extension apparatus for use during (illustrated), 365.
Foreign body in the pharynx of a horse (illustrated), 368.
Forest fly, the, 403.
" Forks," so-called, origin of the, in bags of oats (illustrated), 344.
Fowl tuberculosis, intra-cutaneous tuberculin test as a diagnostic in, 72.
Fracture of the tibia, 205.

French and American armies, the veterinary service in, 229.
— army veterinary service, remarks on the, 231.
—— operation for quittor (illustrated), 362.

## G.

Gangrenous mammitis in cattle, treatment of, 11.
*Gastrophilus equi*, larvæ of, bile and uræmic poisoning in a mare due to, 28.
Gastrotomy and enterectomy in the dog, 66.
*General Articles.*—
Bile and uræmic poisoning in a mare due to larvæ of *Gastrophilus equi*. By H. P. Bonnikson, 28.
Certain relations of the lower animals to human disease. By David John Davis, 22.
Remarks on the French army veterinary service. By M. E. Leclainché, 231.
To raise a fallen horse with a rope. By A. C. Wright, 26.
Urinary calculi, with a report of six cases operated at the University Hospital. By J. H. Snook. 17.
Veterinary officer, the, in the United States Army, 230.
Glanders, complement fixation test for, temperature required for the "inactivation" of mule blood for the, 245.
—— intradermal palpebral mallein test for, 200.
Graphic method of recording lameness (illustrated), 162.
Grease, treatment of, 287.

## H.

Heifer, colic in a, 408.
Hermaphroditism, spurious, interesting case of (illustrated), 206.
Hock, punctured wound of the, in a cart mare, 65.
Hooks, retracting, for neurectomy operations (illustrated), 367.
Horse, bacterial necrosis in the, 44.
—— contagious necrosis in the, report on (illustrated), 396.
—— disease known as septic or contagious pneumonia, inquiry into the (illustrated), 345.
—— foreign body in the pharynx of a (illustrated), 368.
—— mange of the, Lepinay's treatment of, by sulphurous anhydride (illustrated), 267.
Horse, peculiar case of "temporary paralysis (?) of the neck muscles" in a, 320.
—— racing, 266.
—— to raise a fallen, with a rope, 26.
—— tuberculosis in the, 242.
—— vesicular stomatitis in the, 177.
Horse-breeding question, 40.
Horsehair, drainage by means of, 221.
Horses, return of, to England, with regard to some diseases of war and their urgent significance, 146.
—— "stomatitis contagiosa" in (illustrated), 234.
—— use of sugar in surgical lesions of the foot of, 220.
Human disease, on certain relations of the lower animals to, 22.
Hysterectomy for torsion of the uterus in a bitch—cure, 175.

## I.

*Illustrations.*—
Abscess, serous, in the region of the neck: method of incision, 286.
Apparatus for treatment of mange of the horse by sulphurous anhydride (Lepinay's method), 268, 270, 273, 274, 275.
Bacillus found in septic or contagious pneumonia of the horse, 355.
Castrating rope, 211, 212.
Contagious necrosis in the horse, 397.
Cryptorchid's testicle containing *Strongylus armatus*, 319.
Dropsy in sheep, 249.
Equine sarcopt from the mouse, 208.
Extension apparatus for use during foot operations, 365.
Foreign body in the pharynx of a horse, 369.
French operation for quittor, 363, 364.
Graphic method of recording lameness. 163.
Interesting shrapnel injury, 44.
Machine-made horseshoe nail and "fork." 345.
Metallic dressing, a so-called, 337, 338.
Objects swallowed by cattle, 260.
Ovary, ruptured, of a mare discovered during spaying, 307.
Poll-evil bridle, 285.
Quittor, operation for, stages of, 156, 157.
Retracting hooks for neurectomy operations, 367.
"Roaring" operation, unusual result after the, 290, 291.
Spurious hermaphroditism, 207.
Stomatitis contagiosa, 151, 152, 153.
—— —— in the horse, 237, 240.

XUM

"Stomatitis contagiosa," in the horse, lesion on the coronet, 239.
Traumatic pericarditis in the cow, 213
Ulcerative cellulitis, 310 to 318.
Illustrations as an aid to diagnosis, 306.
Impetigo, 90.
"Inactivation" of mule blood, temperature required for, for the complement fixation test for glanders, 245.
"Inalter" vial for sera, 34.
Injury, an interesting shrapnel (illustrated), 44.
Inquiry into the horse disease known as septic or contagious pneumonia (illustrated), 345.
Interesting case in a foal, 164.
—— —— of eversion of the uterus in a cow, 43.
—— —— of spurious hermaphroditism (illustrated), 206.
—— ovariotomy of a troublesome mare (illustrated), 307.
—— patient, an, 320.
—— shrapnel injury (illustrated), 44.
Intermediary agencies in the spread of contagious diseases, 184.
Intermediate objects as carriers of disease, 250.
Intra-cutaneous tuberculin test as a diagnostic in fowl tuberculosis, 72.
Intradermal palpebral mallein test for glanders, 200.
Italian Army Veterinary Corps, some professional matters concerning, 375.

## L.

Lameness, a graphic method for recording (illustrated), 162.
—— obscure, in the dog, 16.
*Leading Articles.*—
American Army Veterinary Service, 265
Food supply, 77.
Horse-breeding question, 40.
Horseflesh, Value of, as a food, 230.
Horse-racing, 266.
Illustrations as an aid to diagnosis, 306.
Intermediary agencies in the spread of contagious diseases, 184.
Looking forward, 1.
Observation and drugs, 343.
Our 500th number, 41.
—— response to the pressing need, 183.
Ravages of war and *Truth*, 305.
Shortage of Veterinary Surgeons, 419.
Some diseases of war and their urgent significance in regard to the return of horses to England, 146.
Value of a professional Press, 381.
Veterinary service in the French and American armies, 229
Lepinay's treatment of mange of the horse by sulphurous anhydride (illustrated), 267.
Lightning, struck by, 209.
Liver rot, distomatosis, or fluke in sheep, 91.
Looking forward, 1.
Lower animals, on certain relations of the, to human disease, 22.
Lymphangitis, ulcerous, bacterio-therapeutic treatment of, 371.
—— —— ulcerative cellulitis, report on, 382.

## M.

Maize by-products, some, 276.
Mallein test, intradermal palpebral, for glanders, 200.
Mammitis, gangrenous, in cattle, treatment of, 11.
Man, streptotrichosis (pseudo-tuberculosis), or pseudo-mycosis in, 96.
—— three cases of equine sarcoptic scabies in, 243.
Mange and the air cure, 218.
—— infection of, from the kitten causing cases of pruritic dermatitis, 69.
—— of the horse, Lepinay's treatment of, by sulphurous anhydride (illustrated), 267.
Mare, a cart, punctured wound in the hock in, 65.
—— bile and uræmic poisoning in a, 28.
—— eversion of the uterus in a, 48.
—— troublesome, interesting ovariotomy of (illustrated), 307.
Mares, uterine septicæmia (subacute) endocarditis in mares, 101.
Maxillary osteo-sarcoma, 406.
Mentioned in dispatches, 74.
Metallic dressing, so-called, on the use of a (illustrated), 336.
Method of dealing with punctured and suppurating eyeballs, 322.
—— of recording lameness, a graphic (illustrated), 162.
—— of using antiseptics in war surgery, 405.
Microbian associates of the tetanus bacillus, 94.
Mouse, equine scabies in the (illustrated), 206.

## N.

Necrosis, bacterial, in the horse, 44.
—— contagious, in the horse (illustrated), 396.
Neurectomy operations, retracting hooks for (illustrated), 367.
Night trek through the "fly" belt, 401.

Notes on contagious bovine pleuro-pneumonia in Northern Rhodesia, 369.
*Notice.*—
Collosols, 415.

## O.

Oats, so-called "forks" in bags of, origin of the (illustrated), 344.
*Obituary.*—
Anthony, Capt. H., A.V.C. (illustrated), 226.
Barling, William, C., M.R.C.V.S., 416.
Chauveau, Prof., 39.
Hoskin, Capt. Alfred, F.R.C.V.S., A.V.C. (illustrated), 378.
Mettam, A. E., F.R.C.V.S., 443.
Poole, Capt. Bernard (illustrated), 264.
Shipley, William, F.R.C.V.S., 111.
Simpson, James Ferguson, J.P., F.R.C.V.S., 112.
Tindall, Lieut. Howard S. (illustrated), 340.
Willett, Albert, 445.
Objects, intermediate, as carriers of disease, 250.
Obscure lameness in the dog, 16.
Observation and drugs, 343.
Operation, French, for quittor (illustrated), 362.
Origin of the so-called "forks" in bags of oats (illustrated), 344.
*Original Communications.*—
Anthrax: a peculiar case. By Capt. J. Malcolm Annfield, A.V.C., 288.
Canine, feline, and porcine cases. By Gladstone Mayall, M.R.C.V.S., 165.
Castrating rope. By Richard Jones, M.R.C.V.S. (illustrated), 211.
Diazo-reaction. By G. Gair, M.R.C.V.S., 49.
Dietetic value of wheat bran. By R. G. Linton, M.R.C.V.S., and W. S. Petrie (illustrated), 185.
Disinfection of standings. By Major J. R. Hodgkins, F.R.C.V.S., 285.

—— patient, an. By Capt. J. Malcolm Annfield, A.V.C., 320.
Intermediate objects as carriers of disease. By Gladstone Mayall, M.R.C.V.S., 250.
Intradermal palpebral mallein test for glanders. By Capt. R. P. Holmes, M.R.C.V.S., D.V.S.M. (Vict.), N.D.A., 200.
Lepinay's treatment of mange of the horse by sulphurous anhydride. By Vigel and Chollet (illustrated), 267.
Method of dealing with punctured and suppurating eyeballs. By Capt. A. R. Routledge, A.V.C 322.
Necrotic Vaginitis in Cattle. By Gladstone Mayall, M.R.C.V.S., 429.
Night trek through the fly belt. By Lieut. H. E. H., 401.
Notes on contagious bovine pleuro-pneumonia in Northern Rhodesia. By G. H. Brogan, M.R.C.V.S., 369.
Origin of the so-called "forks" in bags of oats. By Major Frederick Hobday (illustrated), 344.
Peculiar case of "temporary paralysis (?) of the neck muscles" in a horse. By Capt. C. H. S. Townsend, A.V.C., 320.

Poisonous plants. By Nelson S. Mayo, D.V.S., 251.
Poll-evil bridle, a. By Major J. R. Hodgkins, F.R.C.V.S. (illustrated), 285.
Presence of *Strongylus armatus* in the testicle of cryptorchids. By Major Frederick Hobday, F.R.C.V.S. (illustrated), 319.
Rambling reminiscences of a remount officer in U.S.A. By Capt. E. C. Winter, 431.
Remarks on sand colic as met with in Egypt. By Major J. McIntyre, A.V.C. (I.F.), 282.
—— on the surgical treatment of quittor. By Lieut. J. A. Mathison (illustrated), 155.
Report on an outbreak of stomatitis contagiosa. By Major H. E. Gibbs (illustrated), 147.
—— on contagious necrosis in the horse. By Lieut. L. E. Prichard (illustrated), 396.
—— on ulcerative cellulitis—ulcerous lymphangitis. By Capt. E. A. Watson, C.A.V.C., 382.
Retracting hooks for neurectomy operations. By Capt. A. R. Routledge (illustrated), 367.
Rheumatism—or what? By R. Hudson, M.R.C.V.S., 428.
Some maize by-products. By R. G. Linton, M.R.C.V.S., 276.
Spasm of the diaphragm in a pony. By J. Paton, F.R.C.V.S., 322.
"Stomatitis contagiosa" in horses. By A. C. Burton, M.R.C.V.S. (illustrated), 234.
Streptotrichosis or pseudo-actinomycosis in man (pseudo-tuberculosis). By G. Gair, M.R.C.V.S., 96.
Stricture of the pylorus in cattle. By Peter Wilson, M.R.C.V.S., 6.
Struck by lightning. By P. G. Bond, M.R.C.V.S., 209.
Study in toxicology. By Fred C. Mahon, M.R.C.V.S., 50.
Subcutaneous emphysema. By R., Hudson, M.R.C.V.S., 430.
Surgical treatment of compound fracture of the rib. By Capt. A. R. Routledge, 366.
Temperature required for the "inactivation" of mule blood for the complement fixation test for glanders. By J. B. Buxton, F.R.C.V.S., D.V.H., 245.
Tetanus bacillus and its microbian associates. By T. M. Inglis, M.R.C.V.S., 94.
Three cases of equine sarcoptic scabies in man. By Thomas Parker, F.R.C.V.S., 243.
—— —— of sarcoma in the dog. By Canis Major, 292.
"Tips" on camels, for veterinary surgeons on active service. By Capt. A. S. Leese, M.R.C.V.S., 79, 167, 214, 253, 294, 323.
Traumatic division of the deep flexor tendon below the insertion of the superficial digital flexor. By J. V. Lacroix, D.V.S., 12.
Treatment of gangrenous mammitis in cattle. By J. H. Ripley, M.R.C.V.S., 11.
—— of grease. By Capt. A. R. Routledge, F.R.C.V.S., 287.
—— of pneumonia by intra-tracheal injections. By Major Chambers, 421.
—— of serous abscesses on the side of the neck and shoulders resulting from bites. By Capt. A. R. Routledge, F.D.C.V.S. (illustrated), 286.
—— of ulcerative cellulitis with picric acid. By Capt. T S. Bogue, A.V.C., 288.
Tubercular arthritis affecting cervical vertebræ of a mare. By Lieut. W. G. Burndred, 426.
Tuberculosis in the horse. By F. Chambers, F.R.C.V.S., 242.
Ulcerative cellulitis. By Capt. G. G. Pook (illustrated), 308.
Unusual result after the "roaring" operation. By W. Taylor, M.R.C.V.S., D.V.H., I.C.V.D. (illustrated), 290.
Use of arecoline hydrobromide in the treatment of colic. By Capt. C. E. W. Bryan, 400.
War pica. By R. C. G. Hancock, 4.
Osteo-sarcoma, maxillary, 406.
Our 500th number, 41.
—— response to the pressing need, 183.
Ovariotomy, interesting, of a troublesome mare (illustrated), 307.

## P.

Palpebral mallein test, intradermal, for glanders, 200.
Paracentesis abdominis, 32.
"Paralysis (?), temporary, of the neck muscles," peculiar case of, in a horse, 320.
Parasitic diseases, spread of, in men and animals, the present war and the, 102.
